

Overheat Protection

3-Speed choice and oscillation

Features

- Powerful motor and producing strong airflow
- Keeping normal temperature during operation
- 3-speed regulator or variable speed adjustment (optional)
- White or grey blade for your selection
- Convenient, practical and energy-saving
- Perfect design with nice appearance

Function

- Gyro (3600) movement / adjustable wind direction
- Metal blade
- Grill for protection
- 3 Speed Control by regulator
- Ideal for mounting on low height ceiling
- Suitable for industrial applications

HIGH AIR DELIVERY

25MM STRONG MOTOR

ABS BLADE- HIGH THROW

Model	Voltage	Power	Frequency	Type	Color	Diameter
SOF-16-M	220~240V	60W	50Hz	Indoor	White	16"

Blade made of superior grade engineered polymer

Synchronous motor driven ventilation

Inbuilt overheat/overload protection
