Our Products are manufactured and tested in accordance with the recognized standards to ensure highest level of quality , reliability and safety. We offer guarantees to all our products to ensure complete peace of mind.

ISO9001 | ISO14000

the integration of frame and the middle seat makes the product strong and difficult to deform.

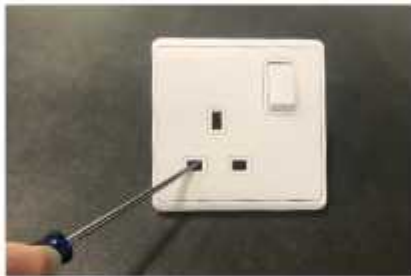

Easy to assemble or disassemble: button, small panel installed on the middle seat, the installation only need to prysm all panel or button once.

the appearance of Switch buttons is elegant that you can even put the whole hand on it which brings a different experience than ever before.

LED Switch and Socket is design with indicator lamp line makes the over all appearance attractive and generous.

Socket with protective door which makes dustproof, waterproof, prevention of unipolar and protects the children.

The fire resistance of the flame is great by using high polymer PC material.
